Education

Bachelor of Science in Computer Science, University of South Florida, Tampa, FL
GPA: 3.8 / 4.0

May 2028

Skills

TECHNICAL SKILLS

Languages: C, Python, C++

Web: HTML, CSS, basic client-side JavaScript, REST APIs

Tools: GitHub, Arduino IDE, Excel

SOFT SKILLS: Time Management, Interpersonal skills, Presentation Skills

Projects

Arduino Robot – Software Lead (Team Project)

Fall semester 2024

- **Programmed** and integrated an autonomous object-tracking robot utilizing C++, delivering a functional prototype under a **\$40 budget** with **95% target detection accuracy**.
- Assisted with **hardware setup, testing**, and design improvements to enhance performance and ensure consistent, low-cost functionality.

Parkour Land – (Unity Project)

Spring semester 2026

- Developed interactive 3D application using Unity and C#, implementing core gameplay and user interaction
- Debugged and refined functionality through testing, improving performance and responsiveness
- Integrated Unity components (scenes, prefabs, scripts) to build a cohesive and interactive experience
- Applied object-oriented programming principles to structure scripts and manage game behavior
- Developed the project independently within a structured framework, following defined requirements and development guidelines

Posture Guard – Hackathon Winner (HackaBull VII)

Spring semester 2026

- Developed a Chrome extension using real-time pose detection to monitor user posture through webcam input.
- Implemented on-device processing for posture analysis, ensuring user privacy with no external data transmission.
- Designed features to detect slouching, track posture habits, and provide real-time feedback and alerts.
- Built a dashboard to visualize posture metrics and trends, including session duration and behavior tracking.
- Utilized MediaPipe and TensorFlow.js to calculate ear-neck-shoulder angles for posture classification and real-time feedback.

Work Experience

Rover – Freelance (Pet care)

May 2025 to August 2025

- Delivered dependable pet care for **recurring clients**, ensuring timely visits and clear communication with pet owners.
- Managed schedules **independently**, demonstrating reliability and strong time management.

Leadership

- SHPE Newsletter Director, USF (member from September 2025)

October 2025 to present

Honors & Awards

- Florida Bright Futures Scholarship Medallion Scholars
- USF Directors Scholarship
- USF Deans list fall semester 2024
